

AVerMedia EZRecorder 330G - 4K Pass-Through DVR with HDMI Capture and Schedule Recording

QUICK BUYER GUIDE

Record 4K content without a PC for gaming consoles and set-top boxes

At a Glance Specs

4K PASS-THROUGH

Watch 4K content on TV while recording in full HD

HEVC ENCODING

2x compression saves storage without quality loss

REMOTE CONTROL

IR blaster activates set-top boxes remotely

STORAGE OPTIONS

Supports external drives, NAS, or micro SD cards

NO PC REQUIRED

Connects directly to consoles and camcorders

USB INTERFACE

Plugs into standard USB ports for easy setup

DIMENSIONS

Compact 5.31 x 1.1 inch footprint

Who It Is For

- ✓ Record 4K content from gaming consoles
- ✓ Digitize VHS tapes without a PC
- ✓ Schedule recordings for set-top boxes
- ✓ Capture live TV with HDMI input
- ✓ Stream directly to social media platforms

Who It Is Not For

- ✗ Cannot record encrypted or HDCP content
- ✗ Requires external storage devices
- ✗ Prefers PC-based recording solutions

Trade Offs to Consider

- Requires external hard drives or NAS storage
- HEVC encoding may increase storage needs
- No built-in battery for remote operation

How It Compares

- No PC required compared to traditional recorders
- HEVC compression vs. standard H.264
- Scheduling features vs. basic recorders

Choose This If...

- ✓ No PC required for recording
- ✓ 4K pass-through for live viewing
- ✓ Schedule recordings automatically

Skip This If...

- ✗ Cannot record encrypted HDCP content
- ✗ Requires external storage devices
