Flexible silicone for comfortable handling

Who It Is For

- ✓ Users needing drop protection for 2022 Alexa Voice Remote Pro
- ✓ Owners seeking a colorful remote cover with grip
- ✓ Those wanting to preserve remote shape and feel
- ✓ People looking for a lightweight, flexible case

Who It Is Not For

- ✗ Owners of previous Alexa Voice Remote models
- ✗ Users needing compatibility with other remotes
- ✗ Those preferring a matte finish
- ✗ People requiring a rigid, non-flexible case

Trade Offs to Consider

- Limited to 2022 model only
- No matte or textured finish options
- Rigid case designs not available
- No additional lighting features

Users Say

● POSITIVES

- ✓ Adds a fun, eye-catching color to the remote
- ✓ Provides a secure grip for better handling

● COMPLAINTS

- ⚠ Doesn't work with older Alexa Voice Remote models

How It Compares

- Focuses on 2022 model compatibility vs. universal fits
- Prioritizes vibrant design over minimalistic styles
- Emphasizes drop protection vs. slim profile

Choose This If...

- ✓ You own a 2022 Alexa Voice Remote Pro
- ✓ You want a colorful, grippy case
- ✓ You need drop protection
- ✓ You prefer a flexible material

Skip This If...

- ✗ You have a previous Alexa Voice Remote model
- ✗ You prefer a matte finish
- ✗ You need a rigid case
- ✗ You don't need additional color
