## Who It Is For

---

-  Homeowners managing smart devices via voice
-  Media consumers streaming music and videos
-  Privacy-conscious users with camera/disable controls
-  Families needing video calls with auto-framing

## Who It Is Not For

---

-  Users preferring no Alexa integration
-  Those needing advanced security cameras
-  People without Wi-Fi connectivity
-  Individuals avoiding smart home hubs

## Trade Offs to Consider

---

- Larger display vs. compact design
- Enhanced audio vs. battery life
- Alexa+ personalization vs. privacy concerns
- Smart home control vs. device compatibility limits

## How It Compares

---

- Larger 8.7" screen vs. previous 8" model
- Spatial audio vs. standard audio output
- Alexa+ personalization vs. basic Alexa
- Integrated smart home hub vs. separate devices

## Choose This If...

---

- ✓ Need voice-activated smart home control
- ✓ Want media streaming with spatial audio
- ✓ Require privacy controls for camera/microphone
- ✓ Desire video calls with auto-framing

## Skip This If...

---

- ✗ Avoid Alexa integration entirely
- ✗ Prefer no camera for privacy
- ✗ Need advanced security camera features
- ✗ Require wired audio connectivity
