DESIGN

Precise cutouts for full access to buttons and ports

SCREEN TYPE

Protects touchscreen with anti-scratch glass layer

MATERIAL

Soft clear edges with durable glass screen protector

PROTECTION

Prevents scratches and bumps on tablet and screen

COLOR OPTIONS

Available in clear and deep-sea blue (sold separately)

Who It Is For

Owners of Fire 7 tablet 2022 needing scratch protection

Users prioritizing clear visibility of tablet finish

Those requiring full access to device ports and buttons

People wanting a no-compromise protective solution

Who It Is Not For

Owners of Fire 7 tablet 2022 or other models

Users needing color options beyond clear

Those requiring additional case features

People with existing screen protectors

Trade Offs to Consider

- Limited to single tablet model compatibility
- No extra features beyond basic protection
- Requires separate purchase for color variants
- Screen protector not replaceable after damage

How It Compares

- Better than bare tablet for scratch prevention
- Less than multi-functional cases with extra features
- More durable than single-layer screen protectors
- Fewer options than customizable case designs

Choose This If...

- ✓ Your Fire 7 tablet needs scratch protection
- ✓ You want clear visibility of tablet finish
- ✓ You need full access to device ports
- ✓ You prefer simple, no-compromise protection

Skip This If...

- ✗ You need color options beyond clear
- ✗ You own a different tablet model
- ✗ You want replaceable screen protection
- ✗ You need additional case features
