## Who It Is For

---

-  Students needing split-screen multitasking
-  Remote workers requiring basic app access
-  Entertainers using dual cameras
-  Budget users prioritizing storage expansion
-  Travelers seeking lightweight portability
-  Educators using GMS-certified apps

## Who It Is Not For

---

-  Gaming enthusiasts needing high-performance GPUs
-  Professionals requiring advanced business software
-  Users needing 4K video streaming
-  Tech-savvy users prioritizing 5G connectivity
-  Content creators requiring high-resolution displays

## Trade Offs to Consider

---

-  Lower performance compared to premium tablets
-  Limited app access without GMS certification
-  Shorter battery life than flagship models
-  Basic camera features instead of advanced photography
-  Fewer connectivity options than newer devices

## How It Compares

---

- Less powerful than 12th-gen Intel tablets
- Fewer premium apps compared to Samsung Galaxy
- Shorter battery life than Apple iPad
- Limited 5G support versus newer models
- Basic design versus premium aesthetics

### Choose This If...

---

- ✓ Seeking affordable multitasking capabilities
- ✓ Prioritizing storage expansion options
- ✓ Need basic app access with GMS support
- ✓ Want lightweight portability for travel

### Skip This If...

---

- ✗ Requiring advanced professional software
- ✗ Prioritizing 5G connectivity
- ✗ Need high-resolution video streaming
- ✗ Seeking premium design and performance
