Minutes to connect via Wi-Fi and mount

Who It Is For

-  Homeowners needing a no-drill security mount
-  Users with Blink Outdoor (3rd Gen) camera
-  Those prioritizing 2-year battery life
-  People installing on vinyl siding

Who It Is Not For

-  Users with Blink Indoor or Mini cameras
-  Those requiring permanent wall installation
-  People needing compatibility with older Blink models
-  Individuals without Sync Module 2

Trade Offs to Consider

-  Limited to Blink Outdoor only
-  Requires separate Sync Module 2
-  No permanent installation option
-  Battery life decreases over time

Users Say

● POSITIVES

- ✓ Easy to install without drilling
- ✓ Bright light works well for night visibility

● COMPLAINTS

- ⚠ Requires additional Sync Module 2
- ⚠ No compatibility with older Blink models

How It Compares

- Better than no-drill mounts with shorter battery life
- Less flexible than permanent wall mounts
- More limited than universal security mount options
- Requires separate purchase of Sync Module 2

Choose This If...

- ✓ You need a no-drill security mount
- ✓ You have Blink Outdoor (3rd Gen)
- ✓ You prioritize 2-year battery life
- ✓ You install on vinyl siding

Skip This If...

- ✗ You need permanent wall installation
- ✗ You use Blink Indoor or Mini cameras
- ✗ You lack Sync Module 2
- ✗ You want compatibility with older models
