APP-BASED SETUP AND CONTROL

Setup through free Blink Home Monitor app

✓ Who It Is For

- ✓ Homeowners needing indoor security monitoring
- ✓ Users wanting motion detection alerts
- ✓ Those seeking two-way audio communication
- ✓ People using smart home ecosystems like Alexa
- ✓ Individuals looking for easy setup without drilling
- ✓ Users needing cloud storage for event clips
- ✓ Those wanting multiple cameras in one package

✗ Who It Is Not For

- ✗ Those preferring outdoor cameras only
- ✗ Users without Alexa or smart home systems
- ✗ People needing 4K resolution
- ✗ Individuals requiring local storage only
- ✗ Those wanting 24/7 live streaming
- ✗ Users needing advanced AI analytics
- ✗ People with limited Wi-Fi range

Trade Offs to Consider

- Limited night vision range compared to outdoor models
- Dependent on Wi-Fi for cloud storage
- No local storage without Sync Module 2
- Requires smartphone app for full features
- Subscription needed for cloud storage
- Two cameras may need separate subscriptions
- Setup requires initial app configuration

Users Say

● POSITIVES

- ✓ Easy to set up and use
- ✓ Good for monitoring pets or packages
- ✓ Works well with Alexa for voice commands

● COMPLAINTS

- ⚠ Cloud storage subscription is required
- ⚠ Limited night vision in low-light areas
- ⚠ No local storage without additional purchase

How It Compares

- More compact than Blink Video Doorbell
- Less advanced than Blink Sync Module 2
- No local storage without additional purchase
- Fewer features than professional security systems
- Easier setup than wired cameras
- Less robust night vision than outdoor models
- No 4K resolution support

Choose This If...

- ✓ Needs indoor security with motion alerts and two-way audio
- ✓ Wants cloud storage with included subscription
- ✓ Looking for easy setup without permanent installation
- ✓ Uses Alexa or other smart home devices
- ✓ Requires two cameras in one package

✗ Skip This If...

- ✗ Needs outdoor camera durability
- ✗ Prefers local storage only
- ✗ Requires 4K resolution
- ✗ Wants 24/7 live streaming
- ✗ Needs advanced AI analytics
- ✗ Has limited Wi-Fi range
