## Who It Is For

---

-  Homeowners with outdoor and indoor security needs
-  Users prioritizing long battery life
-  Those requiring smart motion alerts
-  People with Alexa-enabled devices

## Who It Is Not For

---

-  Users needing frequent battery replacements
-  Those without Alexa integration
-  Individuals requiring local storage only
-  People needing more than three cameras

## Trade Offs to Consider

---

-  Limited local storage options
-  Depends on internet connectivity
-  Subscription costs for advanced features
-  No live view without app access

## Users Say

---

### ● POSITIVES

- ✓ Reliable motion detection alerts
- ✓ Easy setup with included mounting kits
- ✓ Good night vision in low light

### ● COMPLAINTS

- ⚠ Battery life varies with usage patterns
- ⚠ Cloud storage requires subscription fees

## How It Compares

---

- Better battery life than single-camera systems
- Fewer advanced features than premium models
- No local storage without additional hardware

## Choose This If...

---

- ✓ You need 3 cameras for home coverage
- ✓ Long battery life is a priority
- ✓ Smart alerts are essential for security
- ✓ You use Alexa for voice control

## Skip This If...

---

- ✗ You require more than three cameras
- ✗ Local storage without cloud backup is needed
- ✗ Advanced features like person detection are required
- ✗ You prefer no subscription-based services
