Who It Is For

-  Homeowners with large outdoor spaces
-  Users wanting easy setup for multiple cameras
-  Parents monitoring pets or visitors
-  Renters needing temporary security coverage

Who It Is Not For

-  Users without access to power outlets for Mini 2
-  Those requiring more than 10 cameras
-  People needing local storage options
-  Commercial property owners

Trade Offs to Consider

-  Limited to 10 devices in a single system
-  No local storage; relies on cloud
-  Range reduced by walls or obstacles
-  Battery life depends on usage frequency

Users Say

● POSITIVES

- ✓ Easy to install and manage via app
- ✓ Excellent night vision for outdoor use
- ✓ Covers multiple areas with two cameras

● COMPLAINTS

- ⚠ Battery life shorter than advertised
- ⚠ Range limited in thick foliage
- ⚠ No physical siren for emergencies

How It Compares

- Better than single cameras for wide coverage
- Less than professional security systems
- More flexible than wired setups
- Fewer features than smart doorbells

Choose This If...

- ✓ You need coverage for large outdoor areas
- ✓ You prefer wireless setup without drilling
- ✓ You want smart alerts for motion events
- ✓ You're expanding an existing Blink system

✗ Skip This If...

- ✗ You require more than 10 cameras
- ✗ You need local storage options
- ✗ You're in an area with poor Wi-Fi
- ✗ You prefer wired security systems
