Who It Is For

- ✓ Homeowners needing 24/7 outdoor security
- ✓ Users with Alexa voice assistant
- ✓ Those requiring night vision and color alerts
- ✓ Individuals wanting motion detection alerts
- ✓ People needing a built-in siren for deterrence
- ✓ Users looking for cloud storage with subscription

Who It Is Not For

- ✗ Users without existing outdoor wiring
- ✗ Those without Alexa voice assistant
- ✗ Individuals not wanting a subscription plan
- ✗ People needing local storage only
- ✗ Users preferring no built-in siren
- ✗ Those without cloud storage needs

Trade Offs to Consider

- Requires existing wiring setup
- Depends on subscription for full features
- No local storage without additional purchase
- Limited to 1080p HD resolution
- Siren may not deter all intruders
- Cloud storage uses data and subscription

Users Say

● POSITIVES

- ✓ Clear night vision helps spot intruders
- ✓ Alexa integration simplifies control
- ✓ Subscription includes valuable cloud storage

● COMPLAINTS

- ⚠ No local storage without extra cost
- ⚠ Siren may not be loud enough
- ⚠ Setup requires technical wiring knowledge

How It Compares

- Includes built-in siren for instant alerts
- Offers 2600 lumens for bright night vision
- Requires existing wiring instead of Wi-Fi
- Provides 1080p HD with night vision
- Depends on subscription for advanced features
- Works with Alexa for voice control

Choose This If...

- ✓ Need 24/7 outdoor security with siren
- ✓ Want HD live view and night vision
- ✓ Use Alexa for voice control
- ✓ Require 1-year cloud storage subscription

Skip This If...

- ✗ Need local storage without subscription
- ✗ Don't have existing outdoor wiring
- ✗ Prefer no built-in siren
- ✗ Don't want cloud storage
