 **WARRANTY**
18-month manufacturer coverage

Who It Is For

-  TV owners seeking enhanced audio
-  Home theater enthusiasts
-  Users needing multiple connectivity options
-  Those wanting easy wall mounting

Who It Is Not For

-  Outdoor audio setups
-  Waterproof environment requirements
-  Users needing 5.1 surround sound
-  Those preferring wireless subwoofer only

Trade Offs to Consider

-  Lacks waterproofing for humid environments
-  Subwoofer requires power outlet
-  No app-based sound customization
-  Limited to 2.1 channel configuration

How It Compares

- Better than basic soundbars with 2.1ch
- More flexible than single-speaker systems
- Fewer ports than premium home theaters
- Less powerful than 5.1 surround systems

Choose This If...

- ✓ Want 2.1ch surround sound for TV
- ✓ Need multiple connectivity options
- ✓ Plan to mount on walls
- ✓ Require included setup accessories

Skip This If...

- ✗ Need waterproof audio equipment
- ✗ Require 5.1 channel configuration
- ✗ Preferring wireless subwoofer only
- ✗ Looking for app-based controls
