## Who It Is For

---

-  Users requiring 4K display for media or design
-  IT teams managing multiple client setups
-  Workspaces needing cable management
-  Professionals needing wide viewing angles
-  Users looking for high brightness and contrast
-  Those needing VESA mount compatibility

## Who It Is Not For

---

-  Users needing 4K content with HDR support
-  Those with limited desk space for large monitors
-  People prioritizing ultra-thin bezels
-  Users requiring 144Hz refresh rates
-  Individuals needing touch-screen capabilities
-  Those seeking compact or portable monitors

## Trade Offs to Consider

---

-  No built-in touch capabilities
-  Limited refresh rate for gaming
-  Requires external power for USB ports
-  No HDR support for enhanced visuals
-  Heavier than smaller monitors
-  No built-in speakers or audio output

## Users Say

---

### ● POSITIVES

- ✓ Excellent for multi-client workstations
- ✓ Clear 4K visuals for video editing
- ✓ Easy cable management system
- ✓ Sturdy build with good brightness

---

### ● COMPLAINTS

- ⚠ No touch-screen or gesture controls
- ⚠ USB ports may require external power
- ⚠ Larger than most desks can accommodate
- ⚠ No HDR support for premium visuals

## How It Compares

---

- Larger than typical 27-inch monitors
- More expensive than basic 1080p models
- Fewer ports than high-end gaming monitors
- Less energy-efficient than LED alternatives
- Heavier than ultra-slim display options
- No built-in speakers or audio output

## Choose This If...

---

- ✓ You need 4K display for professional work
- ✓ You manage multiple client setups
- ✓ You require wide viewing angles and color accuracy
- ✓ You need VESA mount compatibility
- ✓ You value cable management and clarity
- ✓ You need a durable, high-brightness display

## ✗ Skip This If...

---

- ✗ You need HDR support for premium visuals
- ✗ You require touch-screen or gesture controls
- ✗ You need a compact or portable monitor
- ✗ You prioritize ultra-thin bezels
- ✗ You need a lightweight or energy-efficient display
- ✗ You need built-in speakers or audio output
