## Who It Is For

---

- ✓ Homeowners needing smart home integration
- ✓ Parents seeking secure device placement
- ✓ Tech enthusiasts wanting Alexa features
- ✓ Music lovers with multiple streaming services
- ✓ Users needing hands-free timers
- ✓ Home automation adopters

## Who It Is Not For

---

- ✗ Users with limited wall space
- ✗ Non-Alexa users
- ✗ Budget-conscious buyers
- ✗ Those needing multiple smart speakers
- ✗ Non-tech users
- ✗ Users without Bluetooth compatibility

## Trade Offs to Consider

---

- No built-in charging port
- Standalone stand not included
- Limited color options
- No app for stand customization
- No voice-activated stand controls
- Requires precise placement

## Users Say

---

### ● POSITIVES

- ✓ Improved audio clarity for music playback
- ✓ Secure stand design prevents accidental tipping
- ✓ Versatile streaming options across platforms

### ● COMPLAINTS

- ⚠ Limited color options available
- ⚠ Stand requires exact placement for stability

## How It Compares

---

- Includes secure stand for device safety
- Enhanced audio compared to previous models
- Supports multiple streaming services
- No additional accessories needed

## Choose This If...

---

- ✓ Need Alexa voice assistant integration
- ✓ Want secure stand for device stability
- ✓ Require multi-platform music streaming
- ✓ Prioritize improved audio quality

## Skip This If...

---

- × Don't need Alexa voice assistant
- × Have limited wall space
- × Want different color options
- × Require built-in charging port
