Voice commands for live stream and home security

DUAL DEVICE SHARING

Access camera feed from two smartphones simultaneously

5.5" DISPLAY

View news, weather, and security footage on the Echo Show 5

Who It Is For

-  Parents monitoring babies or pets
-  Homeowners seeking security
-  Users needing real-time alerts
-  Alexa device owners
-  Those wanting dual device access
-  Security-conscious individuals

Who It Is Not For

-  Users without Alexa integration
-  Those needing local storage only
-  Individuals without dual device access
-  Preference for lower resolution cameras
-  No cloud storage requirements
-  Not security-focused

Trade Offs to Consider

-  Limited local storage (up to 512GB microSD)
-  Cloud storage may require subscription
-  No built-in battery for power outages
-  Depends on Wi-Fi connectivity
-  2K resolution needs good lighting
-  5.5" display may not be sufficient for all uses

Users Say

● POSITIVES

- ✓ Crystal-clear 2K video for detailed monitoring
- ✓ Easy to set up and use
- ✓ Dual device access for both parents
- ✓ Instant alerts for motion or baby crying

● COMPLAINTS

- ⚠ MicroSD card not included
- ⚠ Cloud storage subscription fees
- ⚠ Limited local storage capacity
- ⚠ Dependence on Wi-Fi for functionality

How It Compares

- Compared to cameras without Alexa integration
- Better than lower resolution models
- More than cameras without dual device access
- Superior to those without cloud storage
- Better than basic security cameras with no advanced alerts

Choose This If...

- ✓ Need real-time security alerts
- ✓ Use Alexa for voice commands
- ✓ Require dual device access
- ✓ Want 2K HD video quality
- ✓ Have storage needs with microSD
- ✓ Need a display for monitoring

Skip This If...

- ✗ Don't use Alexa integration
- ✗ Prefer local storage only
- ✗ Don't need dual device access
- ✗ Don't want cloud storage features
- ✗ No need for advanced alerts
