Home**

Who It Is For

- ✓ Wants smart lighting with color customization
- ✓ Uses Alexa or Google Home
- ✓ Needs remote light control
- ✓ Seeks energy-saving features
- ✓ Loves voice-activated home automation

Who It Is Not For

- ✗ Lacks 2.4GHz Wi-Fi
- ✗ Requires physical dimmers
- ✗ No Alexa/Google/Siri
- ✗ Prefers basic bulbs without smart features

Trade Offs to Consider

- Requires 2.4GHz Wi-Fi
- Dimming only via app/voice
- Setup needs Alexa account link
- Limited to 2.4GHz Wi-Fi compatibility

How It Compares

- Fewer color options than some bulbs
- No physical dimmer support
- Requires Alexa account setup
- Limited to 2.4GHz Wi-Fi compatibility

Choose This If...

- ✓ Wants smart color control via voice
- ✓ Seeks Alexa/Google integration
- ✓ Needs remote light management
- ✓ Requires 2.4GHz Wi-Fi

Skip This If...

- ✗ Prefers physical dimmer switches
- ✗ Has non-2.4GHz Wi-Fi
- ✗ Wants simpler bulb without smart features
