## Who It Is For

---

- ✓ Outdoor security lighting for garages and pathways
- ✓ Motion-activated floodlight for driveways
- ✓ Remote-controlled solar light for patios
- ✓ Waterproof light for rainy weather

## Who It Is Not For

---

- ✗ Indoor use without waterproofing
- ✗ Low-light areas needing more brightness
- ✗ Users preferring wired installations
- ✗ Those needing color temperature options beyond 6500K

## Trade Offs to Consider

---

- Limited to 270° coverage for wide areas
- Requires 6-8 hours of sunlight charging
- Manual installation with screws
- No app integration for smart home systems

## How It Compares

---

- Less bright than 3000 Lumen floodlights
- Fewer modes than 5+ option models
- Smaller 2-pack compared to 4-pack sets
- No app integration for smart home systems

## Choose This If...

---

- ✓ Need outdoor security with motion detection
- ✓ Want solar-powered without wiring
- ✓ Require waterproof for weather
- ✓ Prefer remote control options

## Skip This If...

---

- ✗ Need more than 270° coverage
- ✗ Require app controls for smart home
- ✗ Want color temperature options
- ✗ Need longer battery life
