

gofanco HDBaseT HDMI 2.0 Extender 4K 60Hz

QUICK BUYER GUIDE

Ideal for extending 4K HDMI signals over long distances with loopout and IR control

At a Glance Specs

TRANSMISSION RANGE

Up to 230ft @1080p, 130ft @4K

POWER DELIVERY

Single power adapter for both units

LOOPOUT FEATURE

Local HDMI output for monitoring

SIGNAL QUALITY

Lossless 4K/60Hz 4:4:4 HDR with HDCP 2.2

COMPATIBILITY

HDMI 2.0, CAT6 cables, IR control

WARRANTY

1-year limited warranty

Who It Is For

- ✓ Extends 4K HDMI signals over long distances
- ✓ Needs local display monitoring
- ✓ Requires IR remote control
- ✓ Uses CAT6 cables for signal transmission

Who It Is Not For

- ✗ Needs Ethernet connectivity
- ✗ Requires shorter HDMI runs
- ✗ Lacks EDID configuration options
- ✗ Uses non-CAT6 cables

Trade Offs to Consider

- Limited to HDMI 2.0 standards
- Requires high-quality cables
- No built-in Ethernet ports
- Manual EDID setup needed

How It Compares

- Better than basic HDMI repeaters for 4K
- Less flexible than Ethernet-based extenders
- Includes loopout for monitoring
- Requires proper cable setup

Choose This If...

- ✓ Need 4K HDMI extension over 130ft
- ✓ Want local display monitoring
- ✓ Use CAT6 cables for reliable signal
- ✓ Require IR control for remote use

Skip This If...

- ✗ Need Ethernet connectivity
- ✗ Plan to use shorter HDMI runs
- ✗ Lack proper cable infrastructure
- ✗ Require advanced EDID customization
