## Who It Is For

---

-  Users who want 4K HDR streaming
-  Smart home enthusiasts with voice control
-  Those who stream multiple services like Netflix and Hulu
-  People who watch live TV with free channels
-  Users who need a compact and stylish media player
-  Individuals who value fast app switching and navigation

## Who It Is Not For

---

-  Users who need 8K resolution
-  Those who prefer physical media over streaming
-  People who want a large touchscreen interface
-  Individuals who require advanced gaming features
-  Users who do not use voice-activated controls
-  Those who need a standalone smart TV

## Trade Offs to Consider

---

-  No built-in smart TV features
-  Requires separate HDMI cable
-  Limited storage for apps beyond 32 GB
-  No support for 8K content
-  Does not include a smart home hub
-  Voice control limited to Google ecosystem

## Users Say

---

### ● POSITIVES

- ✓ Voice remote is very convenient for finding content
- ✓ 4K HDR quality is impressive for streaming
- ✓ Easy to set up and navigate
- ✓ Great for smart home integration
- ✓ Fast performance and smooth app switching

---

### ● COMPLAINTS

- ⚠ HDMI cable is not included
- ⚠ Storage may be insufficient for heavy app use
- ⚠ Voice control has limited third-party support
- ⚠ No built-in smart TV features
- ⚠ Remote can be lost or misplaced

## How It Compares

---

- Better than older models with faster processor
- Less powerful than high-end gaming consoles
- More compact than traditional smart TVs
- Fewer features than standalone smart TVs
- More focused on streaming than gaming
- More affordable than 8K streaming devices

## Choose This If...

---

- ✓ You want 4K HDR streaming with voice control
- ✓ You need a compact and stylish media player
- ✓ You watch live TV and stream multiple services
- ✓ You value fast app switching and navigation
- ✓ You integrate smart home devices with Google
- ✓ You prefer a remote with customizable buttons

## ✗ Skip This If...

---

- ✗ You need 8K resolution or advanced gaming features
- ✗ You prefer physical media over streaming
- ✗ You require a large touchscreen interface
- ✗ You do not use voice-activated controls
- ✗ You need a standalone smart TV
- ✗ You need more storage for apps beyond 32 GB
