 **POWER**
50W energy consumption, 120V compatible

Who It Is For

- ✓ Binge watchers needing clear HD visuals
- ✓ Gamers requiring 16ms input lag
- ✓ Smart home users with Alexa integration
- ✓ Space-conscious viewers prioritizing slim design

Who It Is Not For

- ✗ 4K UHD content creators
- ✗ Users needing 120Hz refresh rates
- ✗ Multi-room audio setups
- ✗ Those requiring HDMI 2.1 ports

Trade Offs to Consider

- Sacrifices 4K resolution for lower price
- Limited port selection compared to premium models
- Depends on Wi-Fi for streaming performance
- Alexa integration lacks third-party app support

How It Compares

- Better than basic TVs with Alexa integration
- Less advanced than 4K smart TV alternatives
- Competes with budget Fire TV models
- Matches mid-tier Android TV boxes in features

Choose This If...

- ✓ Want affordable smart TV with voice control
- ✓ Prioritize slim design for small spaces
- ✓ Need DTS sound for immersive audio
- ✓ Seek 16ms low latency for gaming

Skip This If...

- ✗ Require 4K Ultra HD resolution
- ✗ Need 120Hz refresh rate for sports
- ✗ Desire HDMI 2.1 port for next-gen consoles
- ✗ Want multi-room audio capabilities
