Who It Is For

- ✓ Owners of compatible smart TVs
- ✓ Users needing extra cable length
- ✓ Those with damaged power cords
- ✓ Soundbar owners requiring replacement

Who It Is Not For

- ✗ Users with polarized 3-prong plugs
- ✗ Those requiring 240V compatibility
- ✗ People needing a different connector type
- ✗ Users prioritizing surge protection

Trade Offs to Consider

- Shorter than some extension cords
- No built-in surge protection
- Limited to non-polarized 2-prong use
- Specific connector may not fit all devices

How It Compares

- Fits specific TV models vs. generic cords
- 5FT length vs. longer extension cables
- 2-prong plug vs. 3-prong grounded options
- C7 connector vs. other power cable types

Choose This If...

- ✓ Need compatibility with listed TV brands
- ✓ Want 5-foot length for moderate extension
- ✓ Require 2-prong non-polarized plug
- ✓ Looking for lightweight portable solution

Skip This If...

- ✗ Need a different connector type
- ✗ Require longer than 5-foot cable
- ✗ Need 240V compatibility
- ✗ Prioritize surge protection features
