

Kasa Smart HS210 3-Way Wi-Fi Light Switch Kit

QUICK BUYER GUIDE

Homeowners needing voice-controlled Wi-Fi light switches compatible with Alexa and Google Home

At a Glance Specs

 **SWITCH TYPE**
3-way or single pole toggle switch

 **POWER RATING**
Supports up to 1800 watts

 **CONNECTIVITY**
2.4GHz Wi-Fi with no hub required

 **CONTROL METHOD**
Voice commands via Alexa/Google Assistant

 **INSTALLATION**
App-guided setup with neutral wire needed

 **SAFETY**
UL certified for residential use

Who It Is For

- ✓ Users replacing traditional 3-way switches
- ✓ Homeowners with Alexa/Google Assistant
- ✓ Those wanting app-based scheduling
- ✓ Parents needing gradual light dimming

Who It Is Not For

- ✗ Installers without neutral wiring access
- ✗ Users requiring Zigbee/Mesh networks
- ✗ Those preferring physical switch-only control

Trade Offs to Consider

- Requires neutral wire for installation
- Limited to 120V residential circuits
- No local emergency shutoff function
- Dependent on Wi-Fi connectivity

How It Compares

- No hub needed vs traditional smart switch hubs
- App-based scheduling vs physical timers
- Voice control vs manual switches
- UL certified vs non-certified alternatives

Choose This If...

- ✓ You need voice control integration
- ✓ You want remote scheduling features
- ✓ You have neutral wiring available

Skip This If...

- ✗ You lack neutral wiring access
- ✗ You prefer no app dependency
- ✗ You need commercial-grade switches
