32GB for 10,000+ books and audiobooks

DESIGN

Lightweight ergonomic shape with physical page buttons

TECH

Latest e-ink technology for fast page turns

Who It Is For

-  Frequent travelers needing cellular access
-  Poolside readers requiring waterproof durability
-  Audiobook enthusiasts with Bluetooth support
-  Users prioritizing ergonomic page-turning
-  Owners of large book collections
-  Those avoiding blue light with adjustable warm light

Who It Is Not For

-  Color-ebook readers
-  International travelers without US cellular coverage
-  Physical book collectors
-  Users needing app integration for notes
-  Those prioritizing ultra-long battery life
-  People avoiding e-ink technology

Trade Offs to Consider

-  Cellular connectivity limited to US networks
-  No color display for graphic-heavy content
-  Battery drains faster with cellular enabled
-  Higher cost compared to basic e-readers
-  No built-in note-taking features
-  Limited customization for screen brightness

How It Compares

- Better than Kindle Paperwhite for cellular access
- Less versatile than Kobo for color reading
- More expensive than basic e-readers
- Superior to Nook for waterproof durability
- Worse than Kobo for app integration
- Better than iPad for focused reading

Choose This If...

- ✓ Need waterproof e-reader for outdoor use
- ✓ Want cellular access for on-the-go reading
- ✓ Prioritize ergonomic page-turning controls
- ✓ Require 32GB storage for extensive library
- ✓ Seek adjustable warm light for eye comfort
- ✓ Use Audible with Bluetooth audio support

Skip This If...

- ✗ Need color display for graphic content
- ✗ Travel internationally without US cellular
- ✗ Prefer physical book ownership
- ✗ Require app-based note-taking features
- ✗ Want ultra-long battery life without charging
- ✗ Avoid e-ink technology entirely
