## Who It Is For

---

-  Retail stores needing secure digital signage
-  Public spaces with vertical TV displays
-  Educational institutions for classroom use
-  Home theaters with portrait-oriented setups
-  Businesses requiring anti-theft mounting
-  Users needing fixed vertical installation

## Who It Is Not For

---

-  Users requiring adjustable tilt or swivel
-  TVs larger than 75 inches
-  Environments needing remote control
-  Mounts for non-HDTV displays
-  Applications requiring weight capacity over 165lbs
-  Users preferring non-lockable brackets

## Trade Offs to Consider

---

-  No adjustable movement options
-  Limited to fixed vertical orientation
-  Requires permanent wall installation
-  No remote control functionality
-  Weight capacity capped at 165lbs
-  No universal VESA pattern support

## Users Say

---

### ● POSITIVES

- ✓ Robust anti-theft design meets security needs
- ✓ Simple installation with included hardware
- ✓ Sturdy construction for public displays

---

### ● COMPLAINTS

- ⚠ No adjustable tilt or swivel options
- ⚠ Limited to fixed vertical mounting
- ⚠ Weight capacity may not suit larger TVs

## How It Compares

---

- More secure than non-lockable mounts
- Better suited for fixed setups than adjustable
- Less versatile than multi-pattern VESA mounts
- More durable than plastic alternatives
- Simpler installation than motorized systems
- Fewer features than smart mounts

## Choose This If...

---

- ✓ You need secure vertical TV mounting
- ✓ Fixed orientation is your primary requirement
- ✓ Anti-theft protection is critical
- ✓ You're installing a 37"-75" HDTV
- ✓ You prefer straightforward installation
- ✓ You need VESA 400x600 compatibility

## ✗ Skip This If...

---

- ✗ You require adjustable movement options
- ✗ Your TV exceeds 75 inches
- ✗ You need remote control functionality
- ✗ Weight capacity must exceed 165lbs
- ✗ You prefer non-lockable brackets
- ✗ You need universal VESA pattern support
