## Who It Is For

---

-  Homeowners with 1-2 bedrooms
-  Tech-savvy users
-  Need 24/7 professional monitoring
-  Want expandable security system
-  Prefer mobile app control
-  Own Alexa device

## Who It Is Not For

---

-  Homeowners with 3+ bedrooms
-  No interest in subscription plans
-  Require DIY installation
-  Don't use Alexa
-  Want all-in-one security system

## Trade Offs to Consider

---

- Less coverage for large homes
- Requires subscription for full features
- Limited DIY installation options
- Dependent on Wi-Fi connectivity
- Higher cost with additional accessories

## Users Say

---

### ● POSITIVES

- ✓ Easy setup and intuitive controls
- ✓ Effective alerts and real-time monitoring

### ● COMPLAINTS

- ⚠ Subscription costs add up
- ⚠ Limited DIY options for advanced users

## How It Compares

---

- No DIY installation options
- Requires subscription for full monitoring
- Limited expandability without additional purchases

### Choose This If...

---

- ✓ Need easy setup and mobile control
- ✓ Want 24/7 professional monitoring
- ✓ Have Alexa for voice commands

### Skip This If...

---

- ✗ Have a large home
- ✗ No budget for subscriptions
- ✗ Prefer all-in-one systems
