## Who It Is For

---

- ✓ Homeowners seeking smart security
- ✓ Those needing doorbell and camera integration
- ✓ Users wanting mobile alerts via app
- ✓ People using Alexa for voice control

## Who It Is Not For

---

- ✗ Users without reliable Wi-Fi
- ✗ Those preferring wired security systems
- ✗ Individuals without Alexa compatibility
- ✗ People avoiding subscription plans

## Trade Offs to Consider

---

- Requires subscription for full features
- Depends on Wi-Fi for connectivity
- No physical security without additional sensors
- Needs separate accessories for expansion

## Users Say

---

### ● POSITIVES

- ✓ Easy setup and intuitive app controls
- ✓ Instant alerts for security events
- ✓ Seamless Alexa integration for voice commands

### ● COMPLAINTS

- ⚠ Subscription fees for advanced features
- ⚠ Relies on Wi-Fi for system functionality
- ⚠ Limited color options for doorbell and camera

## How It Compares

---

- Includes doorbell and camera in one package
- Offers mobile alerts and app integration
- Requires subscription for full monitoring
- Depends on Wi-Fi for connectivity
- Limited color options for components

## Choose This If...

---

- ✓ Need smart security with doorbell and camera
- ✓ Want mobile alerts via app
- ✓ Use Alexa for voice control
- ✓ Seek integrated security solution

## Skip This If...

---

- ✗ Avoid subscription-based monitoring
- ✗ Require wired security systems
- ✗ Don't want Wi-Fi-dependent setup
