Cloud or local storage for recorded footage

Who It Is For

-  Homeowners needing 24/7 outdoor monitoring
-  Small businesses with limited security budget
-  Parents monitoring children at home
-  Alexa users seeking voice-activated alerts

Who It Is Not For

-  Users without Alexa-enabled devices
-  Those requiring 4K video resolution
-  People needing constant power source
-  Individuals wanting a single camera system

Trade Offs to Consider

- Battery life vs. constant power availability
- 2K outdoor vs. 1080p indoor resolution
- Two-device setup time vs. single-unit simplicity
- Manual privacy cover vs. automatic sensor

Users Say

● POSITIVES

- ✓ Clear night vision even in low light
- ✓ Easy to mount and configure

● COMPLAINTS

- ⚠ Battery life needs frequent charging
- ⚠ Setup requires two separate installations

How It Compares

- vs. single camera systems: dual coverage
- vs. 4K models: lower resolution but cheaper
- vs. wired systems: no permanent installation
- vs. other bundles: includes both indoor/outdoor

Choose This If...

- ✓ Need 24/7 outdoor and indoor monitoring
- ✓ Use Alexa for smart home integration
- ✓ Want color night vision and two-way audio
- ✓ Prioritize simple setup and privacy controls

Skip This If...

- ✗ Require 4K video resolution
- ✗ Need constant power source
- ✗ Have limited wall space for mounting
- ✗ Prefer a single camera system
