ALARM FEATURE

Siren alarm for suspicious activity

Who It Is For

-  People needing 24/7 property monitoring
-  Homeowners with dark outdoor areas
-  Businesses requiring remote check-ins
-  Users wanting deterrent against break-ins

Who It Is Not For

-  Those without reliable Wi-Fi access
-  Users needing continuous 24/7 power
-  Preferences for wired security systems
-  Those prioritizing long-term storage

Trade Offs to Consider

- Battery life vs. continuous power supply
- Setup time vs. ease of installation
- Video quality vs. storage requirements
- App dependency vs. standalone use

Users Say

● POSITIVES

- ✓ Clear night vision works well in low light
- ✓ Easy to install and setup process
- ✓ Two-way audio is responsive and clear

● COMPLAINTS

- ⚠ Battery life needs frequent recharging
- ⚠ Setup requires multiple app steps
- ⚠ Limited storage options for recordings

How It Compares

- Better than wired cameras (no wires needed)
- Superior to basic 2K cameras (color night vision)
- More advanced than motion sensors (dual-band Wi-Fi)

Choose This If...

- ✓ You need clear night vision for outdoor areas
- ✓ Want two-way audio for remote communication
- ✓ Require deterrent features for property security

Skip This If...

- ✗ You need continuous 24/7 power supply
- ✗ Prefer wired security systems with no battery
- ✗ Require long-term video storage solutions
