SMART FEATURES

Google Meet and Samsung Health

Who It Is For

-  Gaming enthusiasts needing 120Hz refresh rate
-  Homeowners wanting 4K HDR content
-  Users requiring surge protection for electronics
-  Smart home integrators with Samsung ecosystem

Who It Is Not For

-  Users without HDMI ports for external devices
-  Those needing portability for small spaces
-  Individuals prioritizing budget over features
-  People without 4K content libraries

Trade Offs to Consider

-  Less portability than smaller models
-  Higher cost than basic LED TVs
-  Limited ambient mode customization
-  Requires dedicated power outlet

How It Compares

- Built-in surge protector vs. external devices
- 8 outlets vs. standard 4-port units
- Neo QLED display vs. traditional QLED
- Smart home integration vs. basic TVs

Choose This If...

- ✓ Need 4K HDR content delivery
- ✓ Require gaming performance features
- ✓ Want integrated power protection
- ✓ Value smart home compatibility

Skip This If...

- ✗ Prioritize budget over advanced features
- ✗ Need portable display solutions
- ✗ Don't use 4K streaming services
- ✗ Require more than 8 power outlets
