Who It Is For

-  Homeowners wanting easy installation
-  Smart home users with Alexa/Google Assistant
-  Families needing pet-friendly motion sensors
-  Renters avoiding permanent hardware

Who It Is Not For

-  Users requiring bundled monitoring services
-  Those needing wired security systems
-  Commercial property owners
-  Tech-savvy users preferring advanced customization

Trade Offs to Consider

- No professional monitoring included (optional)
- Battery-powered vs wired systems
- No contract vs some systems require long-term agreements
- HD cameras vs basic models
- Smart home integration vs standalone systems

How It Compares

- Optional monitoring vs bundled services
- Wireless setup vs wired systems
- No contract vs long-term agreements
- HD cameras vs standard resolution
- Smart home integration vs standalone

Choose This If...

- ✓ Want no long-term contracts
- ✓ Need easy wireless installation
- ✓ Use Alexa/Google Assistant
- ✓ Require HD indoor surveillance

Skip This If...

- ✗ Need bundled professional monitoring
- ✗ Prefer wired security systems
- ✗ Require advanced customization
- ✗ Own commercial property
