Who It Is For

-  Users wanting to record live TV for later
-  Families with multiple smart TV devices
-  People avoiding cable subscription fees
-  Homeowners with reliable Wi-Fi internet
-  Those needing to watch local channels
-  Users wanting to stream TV on phones/tablets

Who It Is Not For

-  Non-smart TV owners
-  Users needing a dedicated remote
-  Those requiring hidden fees
-  People without consistent internet
-  Users wanting 4K resolution
-  Individuals needing cloud storage

Trade Offs to Consider

-  Limited onboard storage without USB
-  Setup requires coaxial cable and Wi-Fi
-  No built-in remote control
-  Recording capacity depends on USB drives
-  Compatibility excludes non-smart TVs
-  No live streaming for non-FAST channels

How It Compares

- No monthly subscription fees
- Dual tuners for simultaneous use
- Whole-home streaming access
- USB-expandable storage options
- No hidden service charges
- Limited to FAST channels only

Choose This If...

- ✓ Need to record live TV shows
- ✓ Want to stream TV on multiple devices
- ✓ Avoid cable subscription costs
- ✓ Have a stable home internet connection
- ✓ Use smart TVs or streaming players
- ✓ Need to watch local broadcast channels

Skip This If...

- ✗ Require a dedicated remote control
- ✗ Need 4K resolution support
- ✗ Want cloud-based storage
- ✗ Own non-smart TV models
- ✗ Lack reliable Wi-Fi internet
- ✗ Need 24/7 channel availability
